

In 1992, Rahimafrooz introduced the Instant Power System (IPS) in Bangladesh. Since then, our premium quality tubular, deep-cycle inverter batteries have powered thousands of homes across the country. With a superior range of inverter batteries, we have successfully cemented our leadership status in the local market.

## Key product features

- Pressure-casted spine grid using HADI machine
- Specialized paste recipe
- Fine pore structured gauntlet
- Highly Porous Heavy Duty (HD) separator
- Float Vent Plug for electrolyte level monitoring
- Robust container
- Extended life
- Quick charging feature
